

Journal of Geomatics
(A publication of the Indian Society of Geomatics)

Vo. 3, No. 2

October 2009

Contents	iii
1. The Precise Underwater Monitoring Method for the Stability of Inshore seabed <i>Gang Chen, Fang jie Wang and Youli Ma</i>	41
2. Effect of N-dimentional data sharpening on scene classification <i>H. Pande, Poonam S. Tiwari and Shashi Dobhal</i>	45
3. Detection of Anomaly in Water Body using Hyperspectral Images <i>Jayanta Kumar Ghosh, Ankur Singh and Kriti Mukherjee</i>	53
4. The Optimal Land Grading Surface for A Construction Site <i>Bashar S. Al-Joboori and Hussain A. Al-Ziyadi</i>	57
5. Assessment of Coastal Geomorphic Processes in Erasama Block, Jagatsinghpur District, Orissa <i>Manoranjan Mishra and Milap Chand Sharma</i>	63
6. Landcover mapping and spectral analysis using multi-sensor Satellite data fusion techniques: case study in Tioman Island, Malaysia <i>Biswajeet Pradhan and Zuraimi Suleiman</i>	71
7. Spectral Emergence and Maturity Dates Determination of Wheat Using SWIR Data in Haryana <i>M.H. Kalubarme, Markand P. Oza and Manoj Yadav</i>	79
8. Regions Classification Using Support Vector Machines <i>M. Raja Sekar, P. Prem Chand and I.V. Murlikrishna</i>	87
National Geomatics Awards	v
Format for nomination for National Geomatics Awards	vi
Fellows and Patron Members	vii
