

**Journal of Geomatics**  
(A publication of the Indian Society of Geomatics)

Vol. 2, No. 1

April 2008

Contents	iii
1. Use of geo-informatics for desertification status mapping: A case study of Hanle watershed in cold desert of Ladakh <i>P.S. Dhinwa, S.K. Pathan, Ajai and S.A.R. Shah</i>	1
2. Design considerations for realising a web enabled Spatial Data Infrastructure <i>Hiren C Bhatt and Arup R Dasgupta</i>	7
3. Sensitivity analysis of GPS based estimation of precipitable water vapour <i>Jayanta Kumar Ghosh and Abhisekh Dubey</i>	19
4. Signature studies and classification of forest species using hyperspectral data <i>Dipanwita Haldar, Shiv Mohan and Manab Chakraborty</i>	25
5. Investigation on the impact of tropospheric models on baseline precision in a local GPS network: Case of the Malaysian RTKnet <i>J.D. Dodo and M.N. Kamarudin</i>	31
6. A comparative analysis of DEM generated from SRTM data and digital topographic map A case study of north eastern HAJJAH, YEMEN <i>Ali M. Qaid, H.T. Basavarajappa, B.M. Moawad, and O.O. Omo-Irabor</i>	37
7. A solution for conversion of area from decimal degrees to metric units in ARC INFO GIS software <i>V. Rajesh Kumar</i>	43
