

**Journal of Geomatics**  
(A publication of the Indian Society of Geomatics)

Vo. 3, No. 1

April 2009

Contents	iii
1. Urban environment quality assessment by boolean approach <i>Anshu Gupta, Vivek Dey and Alok Choudhary</i>	1
2. Water area extraction using geo-coded high resolution imagery of Terra SAR-X Radar Satellite in Cloud Prone Brahmaputra River Valley <i>Md. Surabuddin Mondal, Nayan Shrama, P.K. Garg, Bettina Bohm, Wolfgang-Albert Flugel, R.D. Garg and R.P. Singh</i>	9
3. Application of Remote Sensing & GIS for land slides hazard and assessment of their probabilistic occurrence – A case study of NH31A between Rangpo and Singtam <i>Mousumi Gupta, M.K. Ghose and L.P. Sharma</i>	13
4. Target separability analysis for Resourcesat-1 AWiFS data <i>Rimjhim Bhatnagar Singh, Anjum Mahtab and Ajai</i>	19
5. Landscapes rendition in zagros mountain, Iran using information technology <i>Saied Pirastech, Sirous Radkya, Nitin K. Thripathi, Biswajeet Pradhan, Shattri Mansour, Mohammad Firuz Ramli</i>	23
6. Use of remote sensing and GIS technology for landslide hazard mapping using ANN <i>S. Prabhu, S.S. Ramakrishnan and R. Vidhya</i>	29
7. Investigation of Rainfall – Runoff modeling of the Ashti catchment by SCS curve number using remote sensing and GIS <i>B. Veeranna, I.V. Murlikrishna, N.L. Bhavani and E.G. Rajan</i>	37
